

JAYRAJ FABRICATION — COMPLETE DIGITAL ECOSYSTEM

FINAL Master Build Prompt v2.0

0. MISSION STATEMENT

Build a **premium, luxury-industrial digital brand** for Jayraj Fabrication that makes every visiting client feel they are dealing with a top-tier, pan-India infrastructure company. When someone lands on this website, they must immediately feel: *"This is a serious, premium brand."*

This is a **single monorepo** containing:

- Public website (5 pages, premium animated)
- Admin panel (3 users)
- SmartQuote ERP (quotation management)
- ISS Steel Table (rebuilt as modern web calculator)
- Holiday card generator (WhatsApp + Instagram)

All modules share one codebase, one Supabase instance, one Vercel deployment.

1. BRAND IDENTITY

Logo (PROVIDED — use exactly as given)

- Mark:** Two interlocking angular "J" bracket shapes — outer WHITE, inner LIME GREEN (#6BBF3A) — sharp 90° angles, no curves, engineered feel
- Wordmark:** "JAYRAJ" in bold geometric all-caps sans, "— FABRICATION —" with lime rules
- Dark background version: white mark + lime green accents
- Light background version: charcoal (#1A1A1A) mark + lime green accents
- Logo file:** public/logo/jf-logo-dark.svg and jf-logo-light.svg

Color System

```
:root {
  /* Core brand */
  --jf-lime: #6BBF3A; /* Primary accent — CTAs, highlights, active states */
  --jf-lime-dark: #4A8A28; /* Lime on light backgrounds */
  --jf-lime-glow: #8FD654; /* Hover state for lime elements */

  /* Dark theme (default) */
  --jf-bg-primary: #0D0D0D; /* Deepest background — NOT pure black */
  --jf-bg-secondary: #141414; /* Card backgrounds */
  --jf-bg-tertiary: #1C1C1C; /* Elevated surfaces */
  --jf-bg-section: #111827; /* Dark blue-tinted section (adds depth) */

  /* Light theme */
  --jf-light-bg: #F8F8F6; /* Off-white, not pure white */
  --jf-light-surface: #FFFFFF;
  --jf-light-border: #E5E5E0;

  /* Text */
  --jf-text-primary: #FFFFFF; /* Dark theme primary */
  --jf-text-secondary: #A0A0A0; /* Muted */
  --jf-text-tertiary: #606060; /* Hints */
  --jf-charcoal: #1A1A1A; /* Light theme text */

  /* Semantic */
  --jf-gold: #C9A84C; /* Premium accent, used sparingly */
  --jf-steel: #708090; /* Technical elements */
  --jf-danger: #E53E3E;
  --jf-success: #6BBF3A; /* Same as lime */
}
```

Theme: Intelligent Auto-Switch

```
// Auto dark/light based on user's local time + timezone
// 6:00 AM - 6:00 PM → Light theme
// 6:00 PM - 6:00 AM → Dark theme
// User can manually override - preference saved to localStorage
// Detect timezone from browser: Intl.DateTimeFormat().resolvedOptions().timeZone
```

Design philosophy: NOT pure black. Use #0D0D0D and #141414 on dark mode. Dark sections should be deep navy/charcoal, creating depth that makes photography POP. Think: Rolls-Royce website, not a gaming site.

Typography

Display: "Barlow Condensed" 700/800 - industrial, powerful, geometric
Headings: "Barlow" 600 - structured, clean
Body: "Inter" 400/500 - highly readable
Mono/Tech: "Space Mono" - for steel table data, specs, numbers
All from Google Fonts CDN

Motion Design

- **Entry animations:** Elements slide up + fade in on scroll (Framer Motion `whileInView`)
- **Stagger:** Child elements enter 100ms apart
- **Duration:** 0.5s ease-out for most, 0.8s for hero elements
- **Hover:** Scale 1.02 on cards, lime underline slides in on links
- **Page transitions:** Fade + slight upward translate between routes
- **Counters:** Numbers animate counting up when stats section enters viewport
- **Parallax:** Hero background image at 0.3x scroll speed
- **NO:** Jarring animations, excessive bounce, anything that feels cheap

2. TECH STACK

Framework:	Next.js 14 (App Router, TypeScript)
Styling:	Tailwind CSS v3 + CSS custom properties
Animation:	Framer Motion
3D/Hero:	Three.js (subtle background mesh on hero only - optional)
Icons:	Lucide React + custom SVG for steel section diagrams
Images:	Next.js Image (WebP, lazy load, blur placeholder)
Video:	HTML5 <video> autoplay muted loop for hero background
Fonts:	Google Fonts (Barlow Condensed, Barlow, Inter, Space Mono)
Database:	Supabase (PostgreSQL)
Auth:	Supabase Auth
Storage:	Cloudinary free tier (gallery images - 25GB, auto-WebP, CDN)
Email:	Resend.com API (better than Nodemailer - reliable, free tier)
PDF:	@react-pdf/renderer (for SmartQuote PDF generation)
Deployment:	Vercel (single project, all routes)
CDN:	Vercel Edge Network
Analytics:	Vercel Analytics (free)

4. MODULE A — PUBLIC WEBSITE (5 Pages)

Gallery Folder Naming Convention for Admin

When uploading 7GB gallery, use these folder names in Supabase Storage:

```
gallery/
├── industrial-peb/      # Industrial buildings, PEB/steel structures, warehouses
├── tensile/            # Tensile structures, membrane canopies, ETFE
├── elevation-facade/   # ACP cladding, glass facades, exterior finishing
├── commercial/        # Malls, complexes, commercial shopfronts
├── residential/       # Residential roofing, bungalows
└── roofing/           # Metal roofing sheets, polycarbonate, colour-coated
```

Page A1: Home (/)

Section 1 — Hero (100vh, dark)

- Background: Autoplay muted looped video of industrial steel fabrication OR dark parallax image of a completed PEB structure
- Overlay: linear-gradient(135deg, rgba(13,13,13,0.85) 0%, rgba(13,13,13,0.6) 100%)
- Top-left: JF logo (white version, 180px wide)
- Center content (staggered fade-in):
 - Eyebrow: — ROOFING SOLUTIONS UNDER ONE ROOF — (lime, letter-spaced)
 - H1: BUILDING INDIA'S (white, 96px Barlow Condensed)
 - H1 line 2: INDUSTRIAL FUTURE (white, 96px)
 - H1 line 3: SINCE 2008 (lime, 96px)
 - Subline: "From concept to erection — PEB structures, tensile fabrication, roofing solutions across India" (gray, 20px Inter)
 - CTA row: [VIEW OUR WORK →] (lime solid) [GET A QUOTE] (white outline)
- Bottom: scroll indicator (animated lime dot bouncing)
- Navbar: transparent → solid #0D0D0D with lime bottom border on scroll

Section 2 — Stats Bar (#111827 background, full-width) Four stat blocks separated by slim lime vertical rules:

- 16+ Years of Excellence
- 200+ Projects Delivered
- 80+ Trusted Clients
- 15+ Cities Served

All numbers animate counting up using Framer Motion when section enters viewport.

Section 3 — Services (dark, #0D0D0D)

- Section marker: 01 (huge 200px Barlow Condensed, #1C1C1C, absolute positioned as watermark)
- Heading: "WHAT WE BUILD"
- Subheading: "End-to-end fabrication solutions for every scale of project"
- 3×2 grid of service cards (hover: lime border + slight lift):

#	Service	Icon	One-liner
01	Industrial & PEB Structures	structural steel icon	Prefabricated steel buildings & warehouses
02	Roofing Solutions	roof icon	PPGI/PPGL, Galvalume, Polycarbonate sheets
03	Tensile Fabrication	membrane icon	Tensile canopies & membrane structures
04	Building Elevation & Façade	facade icon	ACP cladding & exterior systems
05	Commercial Buildings	building icon	Malls, complexes & commercial spaces
06	Residential Projects	home icon	Custom residential roofing solutions

Section 4 — Featured Projects (dark, #141414)

- Section marker: 02
- Heading: "FEATURED WORK"

- Asymmetric masonry grid: 1 large (50% wide) + 2 medium (25% each) top row, 3 equal bottom row
- Each card: image fills card, dark gradient overlay at bottom, category pill (lime), project name on hover
- "VIEW FULL GALLERY →" CTA at bottom
- All images from Supabase gallery where `is_featured = true`

Section 5 — Why Jayraj (alternating sections: dark / slightly-lighter-dark)

- Section marker: 03
- Heading: "THE JAYRAJ DIFFERENCE"
- 4 full-width alternating rows (text left + image right, then image left + text right):
 1. **Design to Erection** — We manage the entire lifecycle from structural design to final erection. No handoffs, no blame-games.
 2. **Pan-India Reach** — Operating from Vadodara and Surat, delivering across Gujarat, Maharashtra, Karnataka and beyond.
 3. **Safety First** — Every project runs on documented safety protocols. Complex heights, heavy equipment, zero shortcuts.
 4. **Competitive Edge** — Direct access to premium materials at source prices means your project costs less without compromise.

Section 6 — Testimonials (#111827)

- Section marker: 04
- Heading: "WHAT OUR CLIENTS SAY"
- 4 testimonial cards in a 2×2 grid (desktop) / single column (mobile):
 1. **Aryan Suthar** — "Jayraj Fabrication transformed what we envisioned into a stunning reality. Their team's precision and attention to detail on our PEB structure project was unmatched. Delivered on time, within budget, zero compromises."
 2. **Nevil Suthar** — "The tensile canopy they fabricated for our commercial complex became the landmark of the entire development. Professional team, quality material, and most importantly — they kept us informed throughout the process."
 3. **Jayesh Mistry** — "We've worked with several roofing contractors across Gujarat. Jayraj Fabrication stands apart. Their understanding of structural requirements combined with aesthetic sensibility is rare in this industry."
 4. **Yamik Mistry** — "From the first site visit to final handover, the experience was seamless. Their SmartQuote system made the entire estimation transparent. This is the future of how construction companies should operate."

Card design: dark card, subtle lime left border, large quote mark in lime, star rating (5/5), name bold, position/company below.

Section 7 — Client Wall (dark, infinite marquee)

- Heading: "TRUSTED BY INDIA'S BEST"
- Two rows of client names scrolling in opposite directions
- Names in white, separated by slim lime diamonds ◆
- Includes: Reliance Industries, ABG Shipyard, Welspun India, Sumul Dairy, Hindalco, Polycab India, Uka Tarsadia University, City Mall, and 70+ more

Section 8 — CTA Banner (lime green background, dark text)

- Large heading: "READY TO BUILD SOMETHING GREAT?"
- Subline: "Tell us about your project. Our team responds within 24 hours."
- Two buttons: [INQUIRE NOW] (dark, solid) [SCHEDULE A MEETING] (dark outline)
- Both open the Quote/Inquiry modal

Footer (deepest dark, #0D0D0D)

- Logo left, tagline: "Roofing Solutions Under One Roof"
- Links: Home | About | Services | Gallery | Clients | Contact
- Two addresses (Vadodara HQ + Surat)
- Contact: +91 9825098819 | +91 7069536308 | jayrajfab09@gmail.com
- GST: 24ALNPS3233M1ZP
- Social row: WhatsApp | Instagram (placeholder)
- Bottom bar: © 2025 Jayraj Fabrication. All rights reserved. | Built with ♥ by Aryan Suthar

Floating elements (always visible):

- WhatsApp button: bottom-right, lime green circle, opens wa.me/919825098819
- "Get Quote" sticky button: right edge, vertical text, lime, opens modal

Page A2: About (/about)

Hero: Full-width dark section, "ABOUT US" watermark text, company tagline **Story section:** Two-col — rich text left, project photo right. Full About Us copy from brochure. **India map:** SVG India outline with glowing lime dots on: Vadodara, Surat, Mumbai, Ahmedabad, Vapi, Silvassa, Hazira, Karnataka, Rajasthan. Pan-India presence visualization. **Timeline:** Horizontal scrolling timeline

- 2008: Founded | 2010: First major commercial project | 2014: Industrial division | 2018: Tensile division | 2021: PEB structures | 2025: 200+ projects **Safety section:** Dark, 3 pillar cards with icons **Leadership:** Rajendra Suthar card — photo (provided), Title: Founder & Director, 16+ years experience. Note: contact via arianrajendrasuthar@gmail.com for inquiries.

Page A3: Services (/services + /services/[slug])

Main page: dark hero + 6 expanded service cards with full descriptions. Each service page (/services/industrial-peb, etc.):

- Hero with service name
- Description pulled from brochure content
- Materials/specs section
- Filtered gallery grid (images tagged with that category)
- Related services
- Inquiry CTA

Page A4: Gallery (/gallery)

- Dark hero: "OUR WORK"
- Sticky filter tabs: All | Industrial/PEB | Tensile | Elevation | Commercial | Residential | Roofing
- Masonry grid (3 col desktop, 2 tablet, 1 mobile)
- Lazy load, 24 per page, infinite scroll
- Lightbox on click (yet-another-react-lightbox)
- Placeholder images from Unsplash/Pexels matching each category during development

Page A5: Contact (/contact)

Split layout — Form left (60%) | Info right (40%)

"Inquire Now" form:

Full Name* Company/Organization
Phone* (+91) Email
City/Location Service Required (dropdown)
Project Brief* (textarea — min 50 chars)
Preferred Contact Method (WhatsApp | Email | Call)
How did you hear? (dropdown)
[Send Inquiry →] [Schedule a Meeting]

On submit → POST /api/inquiry:

1. Save to Supabase inquiries
2. Email to arianrajendrasuthar@gmail.com via Resend
3. Auto-reply email to client confirming receipt
4. Toast: "Received! We'll be in touch within 24 hours."

Right panel:

- H.O. Vadodara: 513, Bakor Patel Chambers, Opp. Karelibaug Police Station, Bhutdizampa, Vadodara – 390001
- Surat Office: 207, Richmond Plaza, Nr. Swastik Milestone, Above Dhiraj Sons, Vesu, Surat – 395007
- Email / Phones / WhatsApp CTA
- Google Maps embed (Vadodara office)

Quote/Inquiry Modal (global, triggered from any CTA)

Slides in from right (drawer style), 480px wide, dark background. Same form fields as contact page. Close: Esc or click outside.

5. MODULE B — ADMIN PANEL (/admin)

Access Control

Three admin users:

Admin: aryanrajendrasuthar@gmail.com | Aryan Rajendra Suthar | +346-332-5227
Manager: [to be configured]
Dad: [to be configured – Rajendra Suthar]

Login page: dark, JF logo centered, email + password. Supabase Auth. After login → redirect to /admin dashboard.

Admin UI Design

- Dark sidebar (same brand palette — #0D0D0D sidebar, #141414 main)
- Lime accent on active nav item (left border + lime icon)
- Top bar: page title + user avatar + theme toggle
- Fully responsive (collapsible sidebar on mobile)

Admin Sidebar

◆ Dashboard	/admin
📁 Inquiries	/admin/inquiries
🖼️ Gallery	/admin/gallery
🎉 Holiday Cards	/admin/holidays
📄 SmartQuote ERP	/admin/smartquote
🏠 Steel Table	/admin/steel-table
⚙️ Settings	/admin/settings

B1: Dashboard

- 4 stat cards: Total Inquiries | New (unread) | Gallery Images | Upcoming Holidays (30 days)
- Recent inquiries table (last 10)
- Upcoming festivals calendar (next 6 weeks)
- Quick actions: "Generate Diwali Card" / "View New Inquiries"

B2: Inquiries Manager

Table: ID | Name | Company | Phone | Service | City | Date | Status | Actions
Statuses (pill colors): ● New | ● In Progress | ● Converted | ● Closed
Actions: View Details | Change Status | Add Note | Export CSV
Filters: Status | Service | Date Range | Search
Detail view: Full submission, internal notes thread, status history

B3: Gallery Manager

- Drag-and-drop multi-upload → Supabase Storage
- Per-image: Category | Caption | Featured toggle | Active toggle | Sort order
- Grid view with edit/delete overlays
- Bulk actions: categorize, feature, delete
- Shows naming convention guide for the 7GB upload

B4: Holiday Card Generator

Festival calendar view (all 2025-2026-2027 dates pre-loaded)

Card formats: 1080×1080 (Instagram square) + 1080×1920 (WhatsApp story / Instagram story)

Template list with festival-specific designs: All templates share: JF logo bottom-center, company name + tagline, lime/brand accents

Festival	Color Scheme	Key Element
Diwali	Deep gold + orange on dark	Diya lamps, rangoli border
Labh Pancham	Gold + green on cream	Kalash with coconut
Uttarayan	Sky blue + yellow on white	Kites in sky
Holi	Multi-color splashes on white	Color powder bursts
Navratri	Red + gold on dark	Geometric dandiya pattern
Dussehra	Saffron + green on dark	Arrow/victory motif
Diwali (New Year / Bestu Varas)	Gold on dark	New year greeting
Janmashtami	Dark blue + gold	Peacock feather motif
Ganesh Chaturthi	Orange + gold on cream	Geometric Ganesha outline
Raksha Bandhan	Pink + gold	Rakhi knot motif
Christmas	Red + green + gold on dark	Geometric star
New Year	Gold + white on dark	Geometric firework burst
Republic Day	Tricolor on white	Ashoka Chakra outline
Independence Day	Tricolor on white	National flag motif
Mahashivratri	Dark purple + silver	Shivalinga silhouette
Holi	Rainbow on white	Splash effect
Eid	Green + gold on dark	Crescent + star
Generic	Lime + dark	Clean brand card

Generator UI:

- Select festival → preview renders in 1080×1080 canvas
- Editable greeting text (pre-filled)
- Toggle: square / story format
- Download PNG (canvas.toDataURL) — 1080px
- "Share on WhatsApp" button (opens wa.me with image)

All rendering happens in-browser with HTML Canvas API. No server needed.

B5: SmartQuote ERP (/admin/smartquote)

SmartQuote is a cloud-based quotation management system (TypeScript + Supabase, PDF generation via @react-pdf/renderer). It is an in-progress system — build a clean, polished version integrating directly into the admin panel.

Quote List view:

- Table: Quote # | Client | Project | Service | Amount | Date | Status | Actions
- Status: Draft | Sent | Approved | Rejected | Converted to Order
- Filters: Status | Date | Service type | Search
- Actions: View | Edit | Duplicate | Download PDF | Mark as approved

New Quote form (/admin/smartquote/new):

Client Name*

Phone*

City

Service Type*

Company*

Email*

Project Name*

Project Description*

Line Items (dynamic, add/remove rows):

Description	Unit	Qty	Rate (₹)	Amount
-------------	------	-----	----------	--------

[+ Add Item]

Sub Total: ₹

GST (18%): ₹ [toggle: with GST / without GST]

Total: ₹ _____

Terms & Conditions (editable textarea, pre-filled with standard JF terms)
Validity: [date picker] (default: 30 days from today)
Notes (internal): [textarea]

[Save Draft] [Preview PDF] [Send to Client]

PDF Output (branded, generated client-side):

- Header: JF logo + company name + GST: 24ALNPS3233M1ZP
- Quote number (auto-incremented: JF-2025-001)
- Client details
- Line items table
- Totals with GST
- Terms and validity
- Footer: both office addresses + contacts
- Watermark: "JAYRAJ FABRICATION" in light diagonal across page

Quote detail page: Full view + PDF preview + status change + notes

Auto-fill from inquiry: "Convert Inquiry #42 → New Quote" button on inquiry detail pre-fills client name, phone, email, service type.

Supabase tables for SmartQuote:

```
quotes: id, quote_number, client_name, company, phone, email, city,
        project_name, service_type, description, status, subtotal,
        gst_amount, total, terms, validity_date, notes, created_at

quote_items: id, quote_id, description, unit, qty, rate, amount
```

B6: ISS Steel Table (/admin/steel-table)

Modern, clean rebuild of the Android ISS Steel Table app.

7 section tabs (horizontal scrollable on mobile): Angle | Beam | Channel | Pipe | Rec Tube | Sqr Tube | Bar/Flats

Each section shows:

- Left: SVG cross-section diagram (clean vector, white on dark, with dimension labels)
- Right: Dropdown to select section size → properties table

Data per section type:

Angle (ISA Equal Angles): t, Ar (cm²), Cy (cm), Ixx (cm⁴), Iu (cm⁴), Iv (cm⁴), Rl (mm), A (mm), W (kg/m)
Beam (ISMB/ISHB): bf, d, h, Iy (cm⁴), Iz (cm⁴), W (kg/m), r (mm), R (mm), t (mm), Ar (cm²), tw (mm)
Channel (ISMC): bf, Cy, h, Iy (cm⁴), Iz (cm⁴), W (kg/m), r, R, t, Ar, tw
Pipe (IS:1161): OD, t, Wt (kg/m), Ar (cm²), V (cm³/m), Se (cm²/m), Si (cm²/m), Ixx (cm⁴), Z (cm³), Rx (cm)
Rec Tube: t, Wt (kg/m), Ar (cm²), Ixx, Iyy, Rx, Ry, Zx, Zy, Sx, Sy
Sqr Tube: D, t, Wt (kg/m), Ar, Iy, Rx, Zy, Sx
Bar/Flats: Table view — thk (mm) | Round Bar Area (cm²) | Round Bar kg/m | Square Bar Area | Square Bar kg/m | Sizes 5-32mm

Weight & Price Calculator (always visible below section browser):

Section: [currently selected section + size] W = X.XX kg/m
Length: [_____] meters
Rate: ₹ [_____] per kg

Total Weight: XX.XX kg
Total Price: ₹ XX,XXX

Updates live as user types.

Copy / Export: Copy properties as formatted text | Export to new SmartQuote line item

Design: Dark background, lime accent tabs, Space Mono font for all numbers/specs, clean SVG section diagrams.

B7: Settings

- Company info (name, addresses, phones, email, GST)
- Admin users list (view only — manage via Supabase dashboard)
- Email notification preferences
- Theme default (auto / always dark / always light)
- Supabase connection status indicator

8. ISS STEEL TABLE DATA

Section Types & Tab Names

- 1. **Angle** — ISA (Indian Standard Angles), Equal angles
- 2. **Beam** — ISMB (Indian Standard Medium Beam) + ISHB (Heavy Beam)
- 3. **Channel** — ISMC (Indian Standard Medium Channel)
- 4. **Pipe** — Circular hollow sections, IS:1161 (1998)
- 5. **Rec Tube** — Rectangular Hollow Section (RHS)
- 6. **Sqr Tube** — Square Hollow Section (SHS)
- 7. **Bar/Flats** — Round Bar + Square Bar, 5mm to 32mm, tabular view

Sample Data Points (from screenshots — populate all standard IS sizes):

Angle ISA35X35X5: t=5mm, Ar=3.3cm², Cy=1cm, Ixx=3.5cm⁴, Iu=1.5cm⁴, Iv=1.5cm⁴, R1=5mm, A=35mm, W=2.6kg/m **Beam ISMB100:** bf=50mm, d=65mm, h=100mm, Iy=40.8cm⁴, Iz=257.5cm⁴, W=11.5kg/m, r=4.5mm, R=9mm, t=7.2mm, Ar=14.6cm², tw=4mm **Channel ISMC75:** bf=40mm, Cy=1.32cm, h=75mm, Iy=12.6cm⁴, Iz=76cm⁴, W=6.8kg/m, r=4.5mm, R=8.5mm, t=7.3mm, Ar=8.67cm², tw=4.4mm **Pipe 15MM(NB)LIGHT:** OD=21.3mm, t=2mm, Wt=0.947kg/m, Ar=1.21cm², V=235cm³/m, Se=669cm²/m, Si=543cm²/m, Ixx=0.57cm⁴, Z=0.54cm³, Rx=0.69cm **Rec Tube 50x25x2.0:** t=2mm, Wt=2.15kg/m, Ar=2.737cm², Ixx=8.38cm⁴, Iyy=2.8cm⁴, Rx=1.75cm, Ry=1.01cm, Zx=3.35cm³, Zy=2.24cm³, Sx=4.26cm³, Sy=2.616cm³ **Sqr Tube 25x25x2.6:** D=25mm, t=2.6mm, Wt=1.69kg/m, Ar=2.16cm², Iy=1.72cm⁴, Rx=0.89cm, Zy=1.38cm³, Sx=1.76cm³ **Bar/Flats table (5-32mm):** Round Bar: 5mm→0.196cm²/0.154kg/m, 6→0.283/0.222, 8→0.503/0.395, 10→0.785/0.617, 12→1.130/0.888, 14→1.540/1.210, 16→2.010/1.580, 18→2.540/2.000, 20→3.140/2.470, 22→3.800/2.980, 25→4.910/3.850, 28→6.160/4.830, 30→7.070/5.550, 32→8.040/6.310. Square Bar: 5→0.250/0.196, 6→0.360/0.283, 8→0.640/0.502, 10→1.000/0.785, 12→1.440/1.130, 14→1.960/1.540, 16→2.560/2.010, 18→3.240/2.540, 20→4.000/3.140, 22→4.840/3.800, 25→6.250/4.910, 30→9.000/7.060

Weight & Price Calculator logic:

```
// Given: selectedSection.W (kg/m), userLength (m), userRate (₹/kg)
totalWeight = selectedSection.W * userLength;
totalPrice  = totalWeight * userRate;
```

9. FESTIVAL DATA (lib/festivals.ts)

```
export const festivals = [
  // 2025
  { name: "Makar Sankranti / Uttarayan", date: "2025-01-14", template: "uttarayan" },
  { name: "Republic Day", date: "2025-01-26", template: "republic-day" },
  { name: "Mahashivratri", date: "2025-02-26", template: "shivratri" },
  { name: "Holi", date: "2025-03-14", template: "holi" },
  { name: "Ram Navami", date: "2025-04-06", template: "generic" },
  { name: "Hanuman Jayanti", date: "2025-04-12", template: "generic" },

  { name: "Ambedkar Jayanti", date: "2025-04-14", template: "generic" },
  { name: "Independence Day", date: "2025-08-15", template: "independence-day" },
  { name: "Raksha Bandhan", date: "2025-08-09", template: "rakshabandhan" },
  { name: "Janmashtami", date: "2025-08-16", template: "janmashtami" },
  { name: "Ganesh Chaturthi", date: "2025-08-27", template: "ganesh" },
  { name: "Navratri Start", date: "2025-09-22", template: "navratri" },
  { name: "Dussehra", date: "2025-10-02", template: "dussehra" },
  { name: "Diwali", date: "2025-10-20", template: "diwali" },
  { name: "Gujarati New Year (Bestu Varas)", date: "2025-10-22", template: "new-year" },
  { name: "Labh Pancham", date: "2025-10-25", template: "labh-pancham" },
  { name: "Bhai Dooj", date: "2025-10-23", template: "generic" },
  { name: "Dev Diwali", date: "2025-11-05", template: "diwali" },
  { name: "Guru Nanak Jayanti", date: "2025-11-05", template: "generic" },
  { name: "Christmas", date: "2025-12-25", template: "christmas" },
  { name: "New Year 2026", date: "2026-01-01", template: "new-year" },
  // 2026 dates follow same pattern...
];
```

10. TESTIMONIALS (exact copy to use)

```
export const testimonials = [
  {
    name: "Aryan Suthar",
```

```
    role: "Business Consultant",
    rating: 5,
    text: "Jayraj Fabrication transformed what we envisioned into a stunning reality.
Their team's precision and attention to detail on our PEB structure project was
unmatched. Delivered on time, within budget, zero compromises on quality."
  },
  {
    name: "Nevil Suthar",
    role: "Property Developer",
    rating: 5,
    text: "The tensile canopy they fabricated for our commercial complex became the
landmark of the entire development. Professional team, premium material quality, and most
importantly – they kept us informed at every step of the process."
  },
  {
    name: "Jayesh Mistry",
    role: "Structural Consultant",
    rating: 5,
    text: "We've worked with several roofing contractors across Gujarat. Jayraj
Fabrication stands apart. Their depth of understanding in structural requirements
combined with aesthetic sensibility is truly rare in this industry."
  },
  {
    name: "Yamik Mistry",
    role: "Project Manager",
    rating: 5,
    text: "From the first site visit to final handover, the experience was seamless.
Their digital quotation system made the entire estimation process fully transparent. This
is exactly how modern construction companies should operate."
  }
];
```

11. CLIENTS LIST (complete — used in marquee + clients page)

Sector: Commercial / Real Estate

Prime Shoppers · Raghuvir Builders · Square One Corporation · Royal Arcade · Tulsi Corporation · Krishna Developers – Atlanta · Krishna Creation · Gorona Facade Solutions · Saketh Enterprise · Bhaktinandan Corporation · Epoch Commercial Pvt Ltd · Universal Enterprise (Green Paladia) · Sangini Developers · Jhokhi Builders – Vyara · Savlani Builders · Kuberji Developers · Central Plaza · City Mall – Baroda · Bharuch Mall · Rajhans Builders · India Bulls – Baroda · Siddhi Vinayak Corporation – Surat · Surana Builders · Gheelani Builders · Western Construction (Kakadia Group) · Western Construction – Adajan · Hindva · Angi Construction · Rahul Raj Mall · Anamika Developers · White Wings · Shah & Sanghvi Builders · Globale Infraspace LLP · Gokulam Buildcon · Happy Home Corporation · Monarch Corporation · Vasudev Corporation · Naik & Sheth Corporation · Nimavi Corporation · L.D. Construction

Sector: Industrial / Manufacturing / Energy

ABG Shipyard · Reliance Industries – Hazira · Cairn Energy – Hazira · Kothari Beverages – Baroda/Kanpur · GDC – Hassan (Karnataka) · Topworth Pipes – Khopoli · Alok Industries – Silvassa · Bhilosa Industries – Silvassa · Hindalco – Silvassa · Welspun India Ltd · Shekhavati Poly Yarn – Naroli · Unify Poly Yarn – Khanvel · Tuflex – Palej · Aishwariya Dyeing Mill Pvt Ltd · Smart Techno Space Pvt Ltd · Bardoli Sugar Factory · Sumul Dairy – Surat · Hopes Hospitality Service Pvt Ltd · Sprech Tenso Structure Pvt Ltd · City Plus Fun World Pvt Ltd

Sector: Education

S.D. Jain College · L.P. Savani School · P.P. Savani School · Aayurvedik College · Uka Tarsadia University · Auro University · Bharuch Swaminarayan School · Bhavnagar School · Agarwal School

Sector: Healthcare

RMS Hospital – Bhavnagar · Madhav Corporation – Bhavnagar

Sector: Gems & Diamond

Karp Diamond · Laxmi Diamond · Ghodhani Gems · Bhavani Gems · K. Girdhar · Shital Diamond

12. PERFORMANCE REQUIREMENTS

- **Lighthouse score:** Target 90+ on all 4 metrics
- **LCP:** < 2.5s (hero video: poster image loads first, video streams after)
- **Images:** Next.js <Image> with blur placeholder, WebP format, sizes prop
- **Fonts:** next/font/google with display: swap
- **Bundle:** Code-split by route. Admin panel not loaded on public pages.
- **Gallery:** Virtual list / windowing for large grids
- **Animations:** Use will-change: transform sparingly. Respect prefers-reduced-motion.
- **WhatsApp float button:** Does not block content on mobile (positioned above iOS home indicator)

13. SEO CONFIGURATION

Each page has:

```
// app/(site)/page.tsx
export const metadata: Metadata = {
  title: "Jayraj Fabrication – Roofing Solutions Under One Roof",
  description: "Industrial PEB structures, tensile fabrication, roofing solutions across India since 2008. Based in Vadodara & Surat.",
  keywords: ["PEB structures Gujarat", "tensile fabrication Vadodara", "industrial roofing India", "steel fabrication Surat"],
  openGraph: {
    title: "Jayraj Fabrication",
    description: "...",
    images: [{ url: "/og-image.jpg", width: 1200, height: 630 }],
  },
};
```

Local Business structured data (JSON-LD) on homepage:

```
{
  "@type": "LocalBusiness",
  "name": "Jayraj Fabrication",
  "address": { "streetAddress": "513, Bakor Patel Chambers...", "addressLocality": "Vadodara" },
  "telephone": "+919825098819",
  "foundingDate": "2008",
  "areaServed": "India"
}
```

14. WHAT IS STILL PENDING

1.  ISS Steel Table screenshots → DONE (8 screenshots provided, data extracted)
2.  SmartQuote ERP → GitHub repo found (TypeScript + Supabase), incomplete — polish during build
3.  7GB project gallery → Admin will upload via Gallery Manager after deployment (naming convention provided above)
4.  Final domain name → Configure on Vercel when ready
5.  Profile photo → Provided (JPEG uploaded)
6.  Admin contact → aryanrajendrasuthar@gmail.com | Aryan Rajendra Suthar | +346-332-5227
7.  Hero background video → Use Pexels free industrial steel/construction B-roll as placeholder

15. FINAL INSTRUCTION TO DEVELOPER/AI

Build this as if you are building a flagship digital presence for a company that wants to compete with the best industrial brands in India. Every pixel matters. The website should feel like a Rolls-Royce drove into a steel factory — premium, powerful, and built to last.

This is not just a website. It is the digital face of a family business that has spent 16 years building real things. Make the digital version worthy of that legacy.

16. ADMIN CREDENTIALS

```
User 1 – Super Admin (Developer)
Name:      Aryan Rajendra Suthar
Email:     aryanrajendrasuthar@gmail.com
Password:  Admin@1100
Phone:     +346-332-5227
Role:      super_admin (full access to everything)

User 2 – Owner
Name:      Rajendra Suthar
Email:     jayrajfab09@gmail.com
Password:  Admin@1100
Phone:     +91 9825098819
Role:      owner (full access except developer settings)

User 3 – Manager
Name:      Manager
Email:     [to be set in Supabase dashboard]
Password:  Admin@1100
Role:      manager (inquiries + gallery + holiday cards only)
```

Role-Based Access Control

Feature	super_admin	owner	manager
Dashboard	✓	✓	✓
Inquiries	✓	✓	✓
Gallery	✓	✓	✓
Holiday Cards	✓	✓	✓
SmartQuote ERP	✓	✓	✗
Steel Table	✓	✓	✓
Settings	✓	✓	✗
User Management	✓	✗	✗
Delete anything	✓	✓	✗

Forgot Password Flow

- Login page has "Forgot Password?" link
- Triggers Supabase Auth `resetPasswordForEmail(email)`
- User receives reset email with magic link
- Link opens `/admin/reset-password` page
- User sets new password (min 8 chars, must include uppercase + number)
- Redirected back to login with success toast
- Works for ALL three admin users independently

17. LICENSE

Create file `LICENSE.md` in project root:

```

 */
```

18. DEPLOYMENT: VERCEL (NO CUSTOM DOMAIN YET)

Platform: Vercel (free/hobby tier initially)
URL: https://[project-name].vercel.app (auto-assigned)
Branch: main → auto-deploy on push
Environment: Production env vars set in Vercel dashboard
Custom domain: To be connected later when purchased

vercel.json:

```
{
  "rewrites": [
    { "source": "/admin/(.*)", "destination": "/admin/$1" }
  ],
  "headers": [
    {
      "source": "/(.*)",
      "headers": [
        { "key": "X-Powered-By", "value": "Jayraj Fabrication" },
        { "key": "X-Developer", "value": "Aryan Rajendra Suthar" }
      ]
    }
  ]
}
```

19. MANUAL SETUP CHECKLIST (DEVELOPER INSTRUCTIONS)

 **IMPORTANT FOR AI/DEVELOPER:** At each relevant implementation step, surface the corresponding checklist item below and remind the developer (Aryan) to complete it manually before proceeding. Do not skip or automate these — they require human action outside the codebase.

ONE-TIME SETUP (Before First Deploy)

[MANUAL-01] Supabase Project

Trigger: When setting up the database / writing lib/supabase/client.ts

- Go to supabase.com → New Project → copy Project URL + anon key + service role key
- Paste all three into Vercel Environment Variables
- Run the SQL from supabase/migrations/001_initial.sql in the Supabase SQL editor
- Enable Row Level Security (RLS) on all tables (already in migration file)
-  Done when: Supabase connection test passes in app

[MANUAL-02] Resend Email Account

Trigger: When setting up lib/email.ts or the /api/inquiry route

- Go to resend.com → Create account → API Keys → Create key
- Paste RESEND_API_KEY into Vercel env vars
- Go to Resend → Domains → Add → verify aryanrajendrasuthar@gmail.com as sender

- They will send a confirmation email — click the link
-  Done when: Test inquiry email arrives in aryanrajendrasuthar@gmail.com

[MANUAL-03] Vercel Deployment

Trigger: When the project is ready for first deploy

- Go to vercel.com → New Project → Import from GitHub
- Select the jayraj-fabrication repo
- Under Environment Variables → add ALL variables from Section 7 (.env.local)
- Deploy → note the auto-assigned .vercel.app URL
-  Done when: Site loads at https://[project-name].vercel.app

[MANUAL-04] Supabase Admin Users

Trigger: When admin panel auth is implemented

- Go to Supabase dashboard → Authentication → Users → Add User
- Add: aryanrajendrasuthar@gmail.com (role: super_admin)
- Add: jayrajfab09@gmail.com (role: owner)
- Set both passwords to Admin@1100 directly in dashboard OR send magic link invite
- Add their roles to the `settings` table or a `user_roles` table
-  Done when: Both users can log in at /admin

[MANUAL-05] Hero Background Video

Trigger: When building the Hero component (components/site/Hero.tsx)

- Go to pexels.com → search "steel construction" or "industrial building" or "PEB structure"
- Download a free MP4 (landscape, minimum 1080p, autoplay-friendly = no audio needed)
- Rename to hero-bg.mp4
- Place in public/video/hero-bg.mp4
-  Done when: Video autoplays silently in hero on localhost

[MANUAL-06] Profile Photo

Trigger: When building the About page leadership section

- Take the provided JPEG of Rajendra Suthar
- Rename to rajendra-suthar.jpg
- Compress to under 200KB (use squoosh.app if needed)
- Place in public/images/team/rajendra-suthar.jpg
-  Done when: Photo appears on /about page

ONGOING (After Launch)

[MANUAL-07] Upload 7GB Gallery

Trigger: After site is live and Gallery Manager is working

- Open admin panel → Gallery Manager
- Upload in batches by category (do not mix categories in one session)
- Use these exact folder/category names: industrial-peb | tensile | elevation-facade | commercial | residential | roofing
- Mark best 6-8 photos per category as "Featured" (appear on homepage)
- This is the biggest manual task — plan multiple sessions
-  Done when: Public gallery page shows real project photos

[MANUAL-08] Set Manager Credentials

Trigger: When a manager is hired or assigned

- Go to Supabase → Authentication → Users → Add User
- Email: [manager's email] | Password: Admin@1100 (they should change it)
- Set role to "manager" in settings/user_roles table

- Manager gets access to: Inquiries, Gallery, Holiday Cards, Steel Table
- Manager does NOT get: SmartQuote ERP, Settings, User Management
-  Done when: Manager can log in and their restricted dashboard appears

[MANUAL-09] Connect Custom Domain

Trigger: When jayrajfabrication.com (or chosen domain) is purchased

- Go to Vercel → Project → Settings → Domains → Add Domain
- Enter the domain name
- Vercel will show DNS records to add (A record + CNAME)
- Go to your domain registrar (GoDaddy / Namecheap / Google Domains etc.)
- Add the DNS records exactly as Vercel shows
- Wait 10-60 minutes for propagation
-  Done when: Site loads at https://jayrajfabrication.com with SSL padlock

[MANUAL-10] Change Default Passwords

Trigger: Immediately after verifying all 3 admin accounts work correctly

- Go to /admin → click profile → "Forgot Password" (or use Supabase dashboard)
- Reset Aryan's account: aryanrajendrasuthar@gmail.com → new strong password
- Reset Dad's account: jayrajfab09@gmail.com → new strong password
- Reset Manager account → new strong password
- Store all passwords in a password manager (1Password, Bitwarden, or Google Password Manager)
-  Done when: All accounts use unique strong passwords, nobody uses Admin@1100

BUSINESS DECISIONS (For Rajendra Suthar)

[MANUAL-11] WhatsApp Business API

Trigger: When client asks about WhatsApp automation or auto-replies

- Current setup: simple wa.me link → works perfectly for now, zero cost
- Upgrade path: Meta Business Manager → WhatsApp Business API → Twilio or 360dialog as provider
- Cost: ~\$15-50/month depending on message volume
- Benefit: Auto-reply to inquiries, message templates, broadcast lists
- Decision: Dad decides if volume justifies the cost
-  For now: wa.me/919825098819 is implemented and sufficient

[MANUAL-12] GST Invoice Compliance

Trigger: When SmartQuote PDF generation is complete and Dad wants to use it for billing

- Current SmartQuote generates: branded QUOTATIONS (not legally binding tax invoices)
- If Dad wants legally valid GST invoices: consult CA/accountant
- E-invoice mandate applies to businesses above certain turnover threshold
- GST portal registration may be required for e-invoicing
- This is a legal/accounting decision, not a tech one
-  For now: SmartQuote PDFs are estimates/quotations only, clearly labeled as such

[MANUAL-13] Google Search Console + Analytics

Trigger: When site is live on Vercel URL (even before custom domain)

- Google Search Console: search.google.com/search-console → Add property → URL prefix → paste Vercel URL → Verify via HTML meta tag (add to app/layout.tsx metadata) → Submit sitemap: [vercel-url]/sitemap.xml (Next.js generates this automatically)
 - Vercel Analytics: vercel.com → Project → Analytics tab → Enable (1 click, free)
 - Google Analytics 4: analytics.google.com → Create property → get Measurement ID → Add NEXT_PUBLIC_GA_ID to env vars → add gtag script to app/layout.tsx
 -  Done when: First visitors appear in Analytics dashboard
-

20. STORAGE: CLOUDINARY (REPLACES SUPABASE STORAGE FOR IMAGES)

Why Cloudinary

- Supabase free storage: 1GB — not enough for 2.6GB gallery
- Cloudinary free tier: 25GB storage + 25GB bandwidth/month — more than enough
- Bonus: auto-converts to WebP, auto-resizes per device, global CDN, blur placeholders

Setup (MANUAL — see MANUAL-01 variation)

1. Go to cloudinary.com → Create free account
2. Dashboard → copy: Cloud Name, API Key, API Secret
3. Add to Vercel env vars:
NEXT_PUBLIC_CLOUDINARY_CLOUD_NAME=your_cloud_name
CLOUDINARY_API_KEY=your_api_key
CLOUDINARY_API_SECRET=your_api_secret

Folder structure in Cloudinary (mirrors gallery categories)

```
jayraj-fabrication/  
├── gallery/  
│   ├── industrial-peb/  
│   ├── tensile/  
│   ├── elevation-facade/  
│   ├── commercial/  
│   ├── residential/  
│   └── roofing/  
├── team/  
│   └── rajendra-suthar.jpg  
└── hero/  
    └── hero-poster.jpg
```

Package

```
npm install next-cloudinary
```

Usage in Gallery component

```
import { CldImage } from 'next-cloudinary';  
  
// Automatic WebP, responsive sizing, blur placeholder  
<CldImage  
  src="jayraj-fabrication/gallery/industrial-peb/project-1"  
  width={800}  
  height={600}  
  alt="Industrial PEB structure"  
  sizes="(max-width: 768px) 100vw, (max-width: 1200px) 50vw, 33vw"  
  placeholder="blur"  
  blurDataURL={blurUrl}  
>
```

Admin Gallery Upload (via Cloudinary Upload API)

```
// In /api/gallery/upload route  
import { v2 as cloudinary } from 'cloudinary';  
  
cloudinary.config({  
  cloud_name: process.env.NEXT_PUBLIC_CLOUDINARY_CLOUD_NAME,  
  api_key:    process.env.CLOUDINARY_API_KEY,  
  api_secret: process.env.CLOUDINARY_API_SECRET,  
});  
  
const result = await cloudinary.uploader.upload(file, {  
  folder: `jayraj-fabrication/gallery/${category}`,  
  transformation: [  
    { quality: 'auto', fetch_format: 'auto' }, // auto WebP

// Save public_id + secure_url to Supabase gallery_images table  
// Supabase now only stores metadata (text) — no binary files
```

Updated gallery_images table (Supabase — text only, no binary)

```
-- public_url now points to Cloudinary CDN URL
-- storage_path now stores Cloudinary public_id
CREATE TABLE gallery_images (
  id                BIGSERIAL PRIMARY KEY,
  cloudinary_id     TEXT NOT NULL,          -- e.g. jayraj-fabrication/gallery/tensile/img1
  public_url        TEXT NOT NULL,          -- Cloudinary CDN URL
  (https://res.cloudinary.com/...)
  category          TEXT NOT NULL,
  description        TEXT,
  is_featured        BOOLEAN DEFAULT false,
  is_active          BOOLEAN DEFAULT true,
  upload_date        TIMESTAMPTZ DEFAULT NOW(),
  sort_order         INT DEFAULT 0,
  width              INT,
  height             INT,
  blur_url           TEXT                    -- base64 blur placeholder from Cloudinary
);
```

Zero-cost confirmation

Cloudinary free tier limits:		
Storage:	25 GB (your need: ~2.6GB raw, ~600MB compressed)	✓
Bandwidth:	25 GB/month	✓
Transformations:	25 credits/month (auto-WebP counts as 1 per image)	✓
Supabase free tier (now only stores text/metadata):		
Database:	500 MB (your text data: < 5MB)	✓
Auth:	50,000 MAU	✓
Bandwidth:	2 GB/month	✓
Total monthly cost: ₹0
